

Si-line 's COMMITMENTS ✓

SUSTAINABLE DEVELOPMENT

Si-Line promote the employment of handicapped person. We are also engaged in the educational and employment field thanks to our contract policy and to our will to help new graduates.

With our partner, we are making the best to improve our daily packaging looking for new recycled and recyclable raw material.

CUSTOMER SATISFACTION

Our ethic toward our customers is focused on: an active listening, a personalized follow-up, a minimal delay regarding your orders and needs. We are developing specific method to meet your requirements. Our commercial team remains at your service for any advices on our range of products and services.

RESEARCH AND DEVELOPMENT

Innovation is our core strategy. We constantly keep an eye on new market trends and consumption evolution. Thus, we can better meet your needs. Our R&D team is in charge of the assessment and the development of new projects. We do not use animals to make our tests and researches, and our products do not contain animals material.

QUALITY PROCESS

We have defined specific internal process, applied to each stage of the manufacturing process, in order to guarantee you high quality products. Our after sales service is at your disposal to answer to any questions.
